

1988 Summary of Avocado Research

Avocado Research Advisory Committee
University of California, Riverside

TABLE OF CONTENTS

- 1 Economic Trends in Avocados
Eta Takele

BREEDING AND CLONAL TRIALS

- 2 Avocado Breeding
B. O. Bergh
- 3 Avocado Clonal Rootstock Trial
G. S. Bender and M. L. Arpaia

TREE AND FRUIT PHYSIOLOGY

- 4 Plasma Membrane Changes in Avocado Postharvest Physiology
Eugene A. Nothnagel
- 15 Nitrogen Metabolism during Stress of the Hass Avocado
C. J. Lovatt and J. Nevin
- 8 Influence of Salinity/Rootstock on Hass Seedling Growth
J. D. Oster

IRRIGATION/FERTILIZER RESEARCH

- 12 Irrigation/Fertilization Management of Avocados
J. L. Meyer, M. Arpaia and G. Bender

DISEASES

- 16 *Phytophthora citricola*—Advances in our Understanding of the Disease
P. Oudemans and Mike Coffey
- 25 Cultural/Biological Control of *Phytophthora* Root Rot
Mike Coffey
- 28 Chemical Control of Avocado Root Rot
Mike Coffey
- 36 Avocado Rootstocks with Resistance or Tolerance to *P. cinnamomi*
Mike Coffey
- 47 Root rot and Rootstock Facts
Mike Coffey

INSECTS

- 50 Three Avocado Research Projects
Blair Bailey
- 54 Biological Control of Insect/Mite Pests of Avocado
Jim McMurtry

COOPERATIVE EXTENSION COUNTY ACTIVITIES

55 San Diego
Gary Bender

AVOCADO RESEARCH ADVISORY COMMITTEE
