

# 1990 Summary of Avocado Research

Avocado Research Advisory Committee  
University of California, Riverside

## TABLE OF CONTENTS

### BREEDING AND CLONAL TRIALS

- 1 Avocado Breeding  
*Bob Bergh, Botany and Plant Sciences*
- 3 Molecular Genetics of Avocado  
*Michael T. Clegg, Botany and Plant Sciences*
- 5 Generation and Selection of Phytophthora Cinnamomi Resistant Avocado Rootstocks through Somaclonal Variation  
*Sharon Kurtz, Twyford International, Inc.*  
  
Avocado Clonal Rootstock Production Trial  
*Mary Lu Arpaia, Botany and Plant Sciences*

### PHYSIOLOGY

- 12 A definitive Test to Determine Whether Phosphite Fertilization can Replace Phosphate Fertilization to Supply P in the Metabolism of Hass on Duke 7  
*Carol Lovatt, Botany and Plant Sciences*
- 14 Changes in Starch and Ammonia Metabolism During Low Temperature Stress - Induced Flowering in 'Hass' Avocado  
*Carol Lovatt, Botany and Plant Sciences*
- 15 Problems with Urea-N Foliar Fertilization of Avocado  
*Carol Lovatt, Botany and Plant Sciences*

### DISEASES

- 17 Avocado Improvement through Detection and Elimination of Viruses from Selected Rootstock and Scion Varieties  
*J. Allan Dodds, Plant Pathology*
- 19 Rapid Immunological Tests for the Detection of Phytophthora Cinnamomi in Avocado Roots  
*Jyh-Dar Lei, Twyford International, Inc.*
- 24 Screening and Evaluation of New Rootstocks with Resistance to Phytophthora Cinnamomi  
*J. A. Menge, Plant Pathology*
- 27 Epidemiology and Dynamics of Phytophthora Root Rot of Avocado as Affected by Rootstock, Soil, Irrigation and Fungicides  
*Donald M. Ferrin, Plant Pathology*
- 29 Analysis of Suppressive Soils and Development of Biological Control Methods for Phytophthora Root Rot of Avocado

*William L. Casale, Plant Pathology*

- 32 Biological Control of Phytophthora Cinnamomi and P. Citricola on Avocado by the Use of Antagonistic Microorganisms

*Peter H. Tsao, Plant Pathology*

#### INSECTS

- 34 Insect IPM Research

*J. Blair Bailey, Entomology*

- 40 Biological Control of Greenhouse Thrips and Avocado Mites

*J. A. McMurtry, Entomology*

#### GROVE MANAGEMENT

- 42 Irrigation and Fertilization Management of Avocados

*J. L. Meyer, Soil and Environmental Sciences*

- 45 Minimizing Fertilizer Contamination of Ground Water by Fertilizer and Irrigation Management of Avocados

*Marylynn V. Yates, Soil and Environmental Sciences*

- 46 Vegetation Management in Avocado

*Lowell S. Jordan, Botany and Plant Sciences*

#### POSTHARVEST

- 48 Avocado Fruit Quality as Influenced by Preharvest Cultural Practices

*Mary Lu Arpaia, Botany and Plant Sciences*

- 49 The Use of Controlled Atmospheres for Long-Term Storage of 'Hass' Avocado

*Mary Lu Arpaia, Botany and Plant Sciences*

#### AVOCADO RESEARCH ADVISORY COMMITTEE

- 50 Membership
