

1996 AVOCADO RESEARCH SYMPOSIUM

California Avocado Society
and
University of California, Riverside

TABLE OF CONTENTS

- 1 Avocado Clonal Rootstock Production Trial Progress Report
M. L. Arpaia
- 7 Development of a Phenological Model for California 'Hass' Avocado
M. L. Arpaia
- 13 Irrigation and Fertilization Management of Avocado
M. L. Arpaia
- 17 Outcrossing in Avocado: Is There a Relationship to Fruit Yield
M. Clegg
- 23 Soil Factors Associated with Zinc Deficiency in Avocado
D. Crowley
- 33 Irrigation Management of Avocado in a California Coastal Environment
B. Faber
- 35 Avocado Rootstock Development by Somatic Hybridization and Genetic Engineering
R. Litz
- 39 Determinate versus Indeterminate Inflorescences of the 'Hass' Avocado
C. Lovatt
- 45 Effect of Gibberellic Acid on Inflorescence Phenology of the 'Hass' Avocado
(*Persea Americana* Mill.)
C. Lovatt
- 51 Efficacy Studies on Prebloom Canopy Applications of Boron and/or Urea to 'Hass'
Avocados in California
C. Lovatt
- 55 Nitrogen Nutrition of the 'Hass' Avocado: Where Does All the N Go?
C. Lovatt
- 63 Uptake of PGRs Into Determinate versus Indeterminate Inflorescences of the
'Hass' Avocado (*Persea Americana* Mill.)
C. Lovatt
- 67 Biocontrol of *Phytophthora* Root Rot of Avocado
J. Menge
- 71 Screening and Evaluation of New Rootstocks with Resistance to *Phytophthora*
cinnamomi
J. Menge
- 75 Integrated Control of Avocado Diseases
H. Ohr

- 79 Avocado Pollination in California Growing Conditions
K. Visscher
- 81 Avocado Breeding
G. Witney
